

# TEXT RAZZONANCE:

*Some Thoughts on Corporality, Text & Awareness*

Sence the implosoon uf reality is  
inevitable and the e  
missions fum most texts are f  
aint why is awareness often mussim'?

Is it a result of bio-engineerim'  
or suggestion dah body duzn't act  
ually belong in one place?

We must entar deep fieldz  
to reduce entropy  
& discova' the uni  
verse is far frum pointless  
despite cuntrary pussibilities.

Poetry exists perfectly  
withun coherent quantum fields  
whuch resonate predictably  
deepenin' on whud d'ya fiel.

*Shu:* Cun you make any sense of this poem?

*Ella:* (shaking her head) Blymme if I make heads err tails of it.
