A HIDDEN VENUS:

Discovering the Goddess within Every Woman

I have worshipped you since my birth & will remain your servant til this body becomes food for worms.

You are the essence of everyone I've loved & Goddess with a Thousand Names.

> Remembering You life becomes more meaningful & I gain more strength.

For what is life without devotion to beauty? & what is beauty without truth?

> You are the attraction all poets feel as well as the secrets ancients seek to reveal.

To say more e rode wordzzz & bid fare well to meaning

Aíko: (raising her eyebrows) Who's this author referring to?
Cíndy: Does it matter?
Baí-Luo: Any woman can appear as a goddess if approached the right way.
Don: (snickering) Are gods or goddesses necessary? Isn't a normal human sufficiently marvelous?
