

LA FEMME:

Some reflections on femininity

Cantara : (gazing at the image) Is this an ideal woman – a person with no head?

Chris : (cringing) Well, it looks that way. Isn't that what most stupid men desire?

Miok : Balanced people enjoy all aspects of existence: intellect, emotions, physical. Why separate the spheres?

Chris : (tapping his wine glass while frowning) Uh huh. And who does this so-called "balancing"?

Miok : (flippantly) I dunno. Perhaps the commercial interests that brainwash us all?

Tim : Our heads get us into all sorts of trouble. In the deepest sense of the word, perhaps it is better to be "headless."
