

# TORCHED: *Some fugitive words*

Time works on each of us  
as we're gradually reduced to ash

So enjoy life's charade  
yet remember  
how quickly it fades!

Sooner or later  
each drama ends  
as other unseen plots  
yet begin

Know from the start  
every script is dust –  
what's called "life"  
is but a spurious fiction

Is there any question?

**Anya :** This guy sounds disenchanting.

**Carlos :** Well, don't all dreams get broken eventually?

**Devani :** Yes, but isn't that how it should be? Human dreams are essentially sand.

**Brice :** I dunno. Some seem like stone.
